

Dear Sir or Madam,

Thank you for your interest in sponsoring the ICACS & SHIM Joint Conference 2026. Your support is essential to the success of this international scientific event. We are delighted to offer tailored sponsorship opportunities for visibility among a global community of materials science and ion beam technology experts.

ICACS began in Aarhus, Denmark (1965) and SHIM in Caen, France (1989). Their first overlap occurred in Kyoto (Japan, 2012), followed by the first joint event in Caen (France, 2018), and successful joint editions in Helsinki (Finland, 2022) and Canberra (Australia, 2024). The next joint conference will be organized on the island of Brač, Croatia, in 2026.

The ICACS-SHIM 2026 Conference will bring together leading scientists from around the world to exchange the latest results and ideas on:
• atomic collisions in solids and swift heavy ion - matter interactions
• material modifications and chemical and biological radiation effects
• applications of ion beams in research and industry
• development of experimental and computational tools and techniques

Sponsorship options are offered in four tiers — Platinum (€4,500), Gold (€2,700), Silver (€1,500), and Bronze (€500). Full package benefits and conditions are provided on the next page.

We would be honored to welcome your organization among our sponsors. Sponsorship packages can be tailored to your goals, and we are happy to assist with additional details or a customized partnership proposal.

Thank you for considering this opportunity and for supporting scientific progress and innovation.

Best regards,
Organizing Committee of the ICACS & SHIM Joint Conference 2026
Ruđer Bošković Institute, Zagreb, Croatia

Benefit / Feature	Platinum Package – €4,500	Gold Package – €2,700	Silver Package – €1,500	Bronze Package - €500
Availability	1 company	2 companies	8 companies	no limit
